- You must review your policy documents and schedule of cover upon purchase and at renewal of your policy to ensure that it meets your requirements.
- You must provide any information we require including medical information, to assess any potential claim. We strongly recommend that you contact us prior to making arrangements for treatment so we can confirm what will and will not be covered.

How do I cancel the contract?

You can cancel your policy during the 14 day cooling off period, which applies on purchase and at renewal. This period commences on the day your cover starts or on receipt or access to your policy documentation, whichever is the later. We will refund any premium paid at the date of cancellation, providing you have not used any of the services available on your cover and no claims have been made.

If you cancel your cover after 14 days, providing you have not used any of the services available on your cover or attempted to make any claims, you can do this by giving us at least 30 days notice. If you have used any of the services on your policy or attempted to make a claim, you will need to pay the remainder of the annual premium.
