For employers only

Enhance your cover with Dental & Optical

Don't miss out on our routine dental & optical cover

Solutions, our small business private medical insurance product, provides some oral and ophthalmic benefits as part of core cover. However, as with some health insurance policies, cover for routine dental treatment and optical expenses aren't covered as standard.

You can extend your cover to include:

- **up to £450 routine dental benefit**
- **up to £600 accidental dental injury benefit**
- **up to £250 optical benefit.**

A separate £50 excess applies to both the routine dental benefit and optical benefit.

If a member claims for these benefits they will pay the first £50 themselves and the benefit amounts shown would then be available to them to claim towards costs.

If you choose to enhance your cover your premiums will increase.

For further information please speak to your financial adviser.
